Table of Allotments)
FM Broadcast Stations)
(Gotebo, Oklahoma)

To: John Karousos, Assistant Chief
Audio Division of the
Media Bureau

PETITION FOR RULE MAKING

Pursuant to 47 C.F.R. 1.401, Charles Crawford respectfully petitions the FCC to institute a Rule Making proceeding to amend the FM Table of Allotments to add Channel 271A at Gotebo, Oklahoma.

DISCUSSION

Petitioner respectfully submits that the public interest would be served by allocating Channel 271A to Gotebo, Oklahoma as that community's first FM service. Gotebo is an incorporated city with a population of 370 people. Gotebo has its own mayor, city offices, post office, elementary school, volunteer fire department, and a number of local churches. The proposed channel 271A will provide additional diversity and an outlet for local self-

expression to Gotebo residents and therefore is in the public interest.

In order for Channel 271A to be allotted to Gotebo, Oklahoma, station KTST Channel 270C at Oklahoma City, Oklahoma must be reclassified to a C0. (See, Attachment A, Request to Reclassify Statement)

Attached hereto is a channel study confirming that Channel 271A can be allocated to Gotebo, Oklahoma, consistent with the FCC's FM separation rules. See revision of FM Assignment Policies and Procedures, 90 FCC 2d 88 (1992). (See, Attachment B)

Reference coordinates for Channel 271A at Gotebo, Oklahoma are:

35 03 53 N
99 01 36 W

Should this petition be granted, and Channel 271A be allotted to Gotebo, Oklahoma, Petitioner will apply for Channel 271A, and after it is authorized, will promptly construct the new facility.

The factual information provided in this Petition for Rule Making is correct and true to the best of my knowledge.

Respectfully submitted,

Charles Crawford
4553 Bordeaux Ave.
Dallas, Texas 75205

Petition for Rule Making
FM Channel 271A
Gotebo, Oklahoma
July 14, 2003

Attachment A

Request to Reclassify
Station KTST(FM), Oklahoma City, Oklahoma
Pursuant to MM Docket 98-93

Radio Station KTST(FM), Oklahoma City, Oklahoma is licensed to Clear Channel Broadcasting Licenses Inc., 2625 S. Memorial Drive, Suite A, Tulsa, OK 74129, (Facility ID 58390), FCC File No. BLH 20000105ABI. The facility operates with a power of 100 kilowatts with center of radiation 372 meters height above average terrain. The above captioned Docket 98-93 provides the mechanism to automatically downgrade a Class C facility to Class C0 when a demand is made for the spectrum, as is the case here. Charles Crawford respectfully requests that the license of Radio Station KTST (FM) be modified to specify operation on FM Channel 270C0 instead of on FM Channel 270C in accordance with the above Docket which provides for such downgrades when a demand for the unused spectrum is made, as is the case here.

Charles Crawford, the proponent of Channel 271A at Gotebo, Oklahoma, in accordance with the above Docket, formally requests that the Commission reclassify Radio Station KTST (FM) as a Class C0 facility. Charles Crawford certifies that no alternative channel is available for the service he proposes at Gotebo, Oklahoma as is proposed in the Petition for Rule Making. A copy of this Petition for Rule Making is being served on Clear Channel Broadcasting Licenses Inc., as is required in the above Docket.

Charles Crawford
